Drafts can be generated at any time for review prior to filing. A link from your website starts the filing process. The site is hosted by NetFile but looks just like your site. NetFile servers ensure fast and efficient filings. The submitted filing is validated to stop amendments from happening in the first place. Campaign Disclosure INFO SHEET

Document Viewing Portal - Public Transparency Site

You can choose to have your filers' documents shown over the internet in redacted form with your own redaction specifications. You can even narrow down which filers you would want to show.

ADVANCED PUBLIC SEARCH INCLUDED! This means you can search for elements across all your electronically filed data. This guarantees the utmost in transparency for the public to view the filed data.

Document Viewing Portal - Private Site

The system also comes with a kiosk mode that allows you to show filings in unredacted form, but only in your office. That way if someone walks in requesting to view a filing, you can just point them to one of your computers to search for the filings. They could print to your internal printer if they want to purchase a hard copy. No more pulling files and making copies that waste valuable staff time!
