FOR IMMEDIATE RELEASE  
October 17, 2014

## **NETFILE LAUNCHES STATEWIDE ADVANCED SEARCH SITE**

NetFile, the industry leader and pioneer in paperless electronic filing and administration systems for Statements of Economic Interests (FPPC Form 700) and Campaign Disclosure (FPPC Forms 450,460,461,465,470,496, and 497) is proud to announce the launch of a new service to view all electronic filings of Campaign Disclosure statements made in California.

This new site, NetFile CA, is the most advanced and innovative search tool available to view filed data at the state-level as well as local-level filings. It can be viewed by visiting the following site: [www.cal-access.com](http://www.cal-access.com).

NetFile takes the data made available daily by the Secretary of State and adds to that all the filings made by local governments who have electronic filing systems for Campaign disclosure statements. The result is the most powerful search tool for California filings today! Advanced search capabilities include: downloading the data to a spreadsheet, sharing the results through social media, and a direct link from the data to the filing that created it, just to name a few.

Conventional wisdom around the State has been that this type of search tool could ONLY be made possible through a very expensive statewide e-filing system. NetFile DOES NOT AGREE with this conventional wisdom and has built this site to prove an economical solution is available that immediately increases transparency across the State.

The NetFile CA site is available for free consumption and can be used by anyone without charge for a limited time. After that, the site will become a paid for service that will require a modest annual per user fee. Multiple user licenses will be made available for organizations that need this type of data. This service benefits the general public, media outlets, as well as governmental agencies that benefit from having access to this type of data.

NetFile is a privately held corporation based in Mariposa, CA and was established in 1998. NetFile is the originator and leader in e-filing and administration systems for both Campaign Disclosure and Statements of Economic Interests. All programming, sales, and support are based in California so all revenue supports local and state economies.
