

Form 700 Statement of Economic Interests

E-Filing & Admin System

Filing Forms 700 & 800 Series Made Simple and Secure

Make your hard to track paper filing system obsolete with the industry leading provider of an e-filing system for the FPPC Form 700. Don't be fooled by companies with large start up costs and overseas programming. NetFile is the founder and leader of this market with thousands of electronic filings made over many years and our system has no startup costs at all!

Being an online system, the agency, filer, and public can access the system 24/7/365. A shared platform means the system is affordable for even the smallest local government client. NetFile offers 24/7 support that is 100% based in CA! All revenue stays in CA - unlike the competition!

Fact: NetFile **DOES NOT** make contributions to local candidate controlled committees! The competition can't say that.

NetFile's system advantages are:

- NetFile has the most FPPC paperless approved agencies in CA today!
- Manage your conflict of interest code, ethics training, & sexual harassment certs
- Multiple levels of administration for admin and department level filing officers
- Database is kept current throughout the year - no more year-end panic!
- Public portal for 800 series form online requirement
- Electronic filings are 100% error free meaning no more technical amendments!
- Previous Form 700 filer data populates new filing (huge time savings)!
- Automates your FPPC Article II reporting (no need to log in to FPPC system)!
- Fully complies with FPPC 87200 filing system - your 87200 filers use NetFile!
- *Industry exclusive* mobile applications for your iPhone/iPad or Android devices

Electronic Filing

Each Form 700 filer requests their own password. A link from your website starts the filing process. The site is hosted by NetFile but looks just like your site. NetFile servers ensure fast and efficient filings. The submitted filing is validated to stop amendments from happening in the first place. Online video tutorials on every page the filer is on makes filing easy!

Agency Management Tool

The system acts as your repository of filers. Create the filers in the database just once. Notifications can be sent out via an e-mail blast to all filers or filers by department. Run your filing status report for an up to date filing receipt list. From the report you can see exactly who or who has not filed. This report can be run by department or for your entire database.

Paperless Filings, Paper Filings, or Both!

The system handles all types of filings. You can go entirely paperless, entirely paper based, or a combination of both!

SEI Form 700 E-Filing & Admin System Facts:

FPPC Paperless Approved

NetFile has the greatest number of paperless approved agencies in the State of CA today!

Many Years Proven Success

NetFile's local government clients have been using this system for over 10 years now. NetFile has numerous State, County, City, and other type Agencies making several thousands of filings.

No Huge Upfront Costs

You pay a very reasonable ongoing fee affordable for all sized agencies.

Staff Support and Training Included in Ongoing Fee

Being a hosted solution, you enjoy a low ongoing cost that includes both staff support and training at no additional cost to you! There is no limit to the amount of staff support or training provided to our clients.

No Long Term Commitment

All our contracts have 30-day out clauses (for any reason)!

Manage Other Forms

You can now manage other forms such as Ethics Training, Sexual Harassment Training, or other forms you are requiring your filers to complete. Ask for a demo!

No IT Involvement Needed

All IT has to do is place a link on your website (that's it)!

NetFile Dedication

NetFile has been in business since 1998. Providing e-filing systems and software is all we do! There are no other distractions to keep us from servicing our clients to the fullest extent!

Form 700 Document Viewing Portal - Public Site

You can choose to have your filers' documents shown over the internet in redacted form with your own redaction specifications. You can even narrow down which filers you would want to show.

ADVANCED PUBLIC SEARCH INCLUDED! This means you can search for elements across all your electronically filed Form 700 data. This guarantees the utmost in transparency for the public to view at their convenience.

Document Viewing Portal - Private Site

The system also comes with a kiosk mode that allows you to show filings in unredacted form but only in your office. That way if someone walks in requesting to view a filing, just point them to one of your computers to search for the filings. They could print to your internal printer if they wanted to purchase a hard copy. No more pulling files and making copies wasting valuable staff time!

NetFile is Number One in California

NetFile is California's first internet based accounting, disclosure, and data management system. Our clients account for over half of all electronic disclosure document filings in the state of California. For our local government platform, there have been several thousand e-filings made from both our Form 700 SEI filing and admin system as well as our Campaign Disclosure filing and admin system.

Unparalleled Training and Technical Support

Our business model is based on an ongoing service with no long term contractual commitments from our clients. This guarantees you the best in training and support!
